

## Spray Adhesive (Fire-retardant)

## Technical Data Sheet

Model : TD01

### Description

TODA Spray adhesive is a type of adhesive, designed for interior use. It owns such features as high content, good flexibility and strong bonding powder. After hardening, it can resist damp, water, heat, acid, alkali and bumping. It is widely used for bonding sponge, heatinsolated materials, fiber, wood and etc.

### Features

1. Strong adhesion and good initial bonding force
2. Easy application
3. Fast drying and long tack time
4. Non-Flammable

### Technical Index

Appearance	:	Beige viscous liquid
Viscosity	:	160 ± 20 Pa. S/25°c
Solids Content	:	32 ± 1%
Density	:	1.2 ± 0.02 kg/L
Open Time	:	10 min
Strength	:	≥1.2 KN/m <sup>2</sup>
VOC	:	≤50 g/L
Dosage	:	100 - 200 g/m <sup>2</sup>
Application Tools	:	Spray gun
Shelf Life	:	12 months

### Health and Safety

The product subject to legislation regulating their storage and use.

### Storage and shelf life

Store in well sealed containers. Keep satisfactorily for at least 12 months. High temperature storage should be avoided and recommend to store within the temperature 5 to 35°c.
