

About the idiotic ... About all the Thai people!

(13 September 2025)

(Please read them all.)

Refer to the topic “What if “forever”?” (12 September 2025), could you remember that The Father Almighty or Allah teaches Me by the words of Jim Carrey through the post on Instagram: “ผมหยุดอธิบายตัวเอง เมื่อผมได้พบว่า ผู้คนจะเข้าใจได้แค่ในระดับความเข้าใจของพวกเขาเท่านั้น” or can be translated in The English Language “I stopped explaining about myself after I had found that others can understand my explanations only at level of their understanding”?

After I had posted the topic, The Father asked Me “Angie, could You notice that the words of Jim Carrey can also help all the Thai people to excuse by “throwing solid waste on” You and foreign people “Angie and foreign people do not understand us and our reasons why we all needed to follow the orders in that Angie and the foreign people are “stupid!””?”

I would like you to know that this way to excuse is not smart at all.

Why?

It is because ...

... Why do you think that The Father chose the idiotic girl to be The Only One Prophet of The Current Millennium? The Father told Me many times “Angie, You are “A Genius!”” ...

... And ...

... The United Nation grouped Thailand into the group of “developing country”. But I who was born and grew up in Thailand and never have any chances to spend My Life abroad more than 7 days with the result that I know traits of all the Thai people. Therefore, I really know that because of the traits of all the Thai people, so Thailand is not “a developing country”, but “an underdeveloped country!” ...

... As a result, think twice: Before 2000, which countries were “developed countries”? But which countries were “developing countries” or “underdeveloped countries”? And how different between “intelligence” of people of “the developed countries” and “intelligence” of people of “the developing countries” or “the underdeveloped countries” are? I mean that development of the countries tells everyone that people of the countries are smart or people of the countries are idiotic!

I would like the foreign people especially British people, American people, and European people to understand all the Thai people: “คนโง่ก็แก้ตัวแบบโง่ๆ!” or can be translated in The English Language “The idiotic people make idiotic excuses!” and “คนโง่ที่อวดฉลาดมักจะคิดว่าคนอื่นโง่กว่าตัวเอง!” or can be translated in The English Language “The idiotic people who show off their intelligence always think that others are more idiotic than themselves!”
