

My Hymen (Completed Version)

(19 September 2025)

Hi, Will 😊😊.

Will, although I do not have a thick face, I need to straight talk to You in the completed version 😊😊.

Will, I told You that 15 September 2025 was the first day I was in period for the second time of this month. Will, Daddy Almighty told Me **“Angie, it is because You have got low plasma”**

Will, **now, I have some bloody spotting coming out of My Vagina.** So, I have to wear sanitary pads all the time to protect My underwear from blood stains.

Will, **I will not definitely go to see any gynaecologists in that I am strongly possessive and protective of My Hymen.** Will, since I was around 14 years old, after I knew that riding a bicycle and riding a horse can make My Hymen torn, I have never done those activities. Will, I never let anyone touch My sex organ even Mommy Pinya who saw My sex organ to confirm that My Hymen is still only twice times.

However, Will, **I want to know that what happened to My body in that Daddy Almighty told Me “Angie, a kind of poisons which Nok has put into Your drinking water and foods has a power to destroy Your Vagina because all Thai people do not strongly want You to have a baby or babies with Will”.** Will, I really think that after You will have called Me, good British female gynaecologists will be able to answer My questions by not touching My sex organ and not destroying My Hymen.

Will, I am not sure that now, You, Daddy Charles, and Harry know that You All are fooled into waiting for the end of the world, Jesus, and The Judgement which come in 4457 AD or after 2025 AD 2,432 years, or not. But **if You All figure the truths out, could You please call Me after the investigation finishes as fast as possible?**

😊😊 Will, I am waiting for calling from You 😊😊.

😊😊 Will, I am waiting 😊😊.

😊😊😊😊😊😊😊😊
