

## ***My letter to the Chinese government*** ***(17 March 2024)***

First of all, I would like you all to know that this letter is for all Chinese people in the Chinese government but not for Xi Jin-ping.

I heard the news “The Chinese government grouped “Coca-cola” and “Pepsi” into the products that use for cleaning bathroom and toilet”.

So, I would like to ask you all “***In a second***, how many drunkers who rampant? How many drunkers who hurt and hit his own wife and/or his own children? How many drunkers who drank and tend to make hazard in public such as drank and drive? And how many drunkers who do a crime or a felony? Why do not you group wine, beer, and liquor into “***Psychoactive to mind and body substance***”? ...

***... How much bribe the Chinese government has gotten from liquor merchants? ...***

Best regards,

**Note:** My habit to drink “Pepsi”:

- 1) I do not drink “Pepsi” when My stomach is empty.
- 2) I drink “Pepsi” while I am having a meal.
- 3) I drink drinking water average at least 4 – 5 litres a day.
