

## ***My message to Prince William (4 June 2024)***

Will, from the topic “Why King Charles will not be mourned?” and from My explanation “If I become “Princess of Wales”, what will be their alibi to continue detaining Me, My Parents, and My Group in Thailand?”, ***did You understand that You were born as an heir apparent and The Future King of The British Monarchy to have a power to help Me, My Parents, and My Group to go out of Thailand to fly to The Holy Home to save the world in time, not to spend Your life with harlots and their children to test humans?***

Will, I am ready to sign the marriage certificate with You to save the life of King Charles and to fast go out of Thailand to save the world. But I am ready to sign the divorce certificate with You ***at once*** after we arrive The Holy Home to let You go too. So, Will, do not worry but think about Our Missions ***first***.
