

Something important I would like to consult British people (24 February 2024)

Something important I would like to consult British people is ...

... “Does the Ukraine government pay tax for the British government? ...

... Now, the economics of the UK is much down. ...

... Why does the British government need to spend tax ***paid by British people*** for the war in Ukraine? ...

... Why does not the British government spend tax ***paid by British people*** to lift the economics of the UK up before? ...

... The UK is an ***independent*** country. Why do Rishi Sunak and the British government need to keep relationship with the US by the way like this? ...

... Could a British state attorney and/or a group of British people proceed court cases against Rishi Sunak and some ministers ***in personal*** for offenses of using tax ***paid by British people for wrong purposes*** before the UK will be bankrupted?” ...

... Could or could not?

.....
