

The hormone is really powerful!

(19 September 2025)

I stopped taking Depakine which I had doubted that it might have a feminine hormone making Me want to be beautiful, buy new clothes, and dress up beautifully.

Whereas, although I stopped taking Depakine many years, I have still needed to be beautiful, buy new clothes, and dress up beautifully. And the conditions have continuously shown more and more, more and more, and more and more.

Therefore, I actually know that The Hormone That Name is “William Wales” which I have naturally gotten from My Heart is really powerful! ❤️❤️❤️❤️
