

They are not become extinct!

(28 December 2025)

(Please read them all.)

Recently, I heard a piece of news “Rhinoceroses and gibbons nearly extinct from our World”

I felt funny about the news because I really knew that Thailand has many large troops of rhinoceroses and many large troops of gibbons. Each type of the animals has many species from Thailand and from abroad that the leaders of the troops teach them to be a Thai species completely. And the leaders of the troops of the animals are all the female members of the satanic Chakri dynasty! 😊😊😊😊

Do you know habits of female rhinoceroses when they want to have sex with opposite genders?

And do you know that Thai gibbons pronounce “Pua ... pua” or can be translated in The English Language “Husband ... husband” but all the Thai women have ordered The Father Almighty or Allah to change their pronunciation?

Therefore, if you want to see them, you do not need to come to Thailand to be grabbed by them to feed them by your money and a better life. But you can go online many websites to see Thai dramas, Thai talk shows, and Thai news ...

... Do not come to Thailand to see them if you do not want to be an official husband of a rhino or a gibbon that all of them do not have any hearts to love but aim at grabbing you to have sex with them and fool you into raising a child (or children) who is conceived by a sperm of another man, for purposes of your money and a better life! 😊😊😊😊 ...

... That is why The Father let foreign people all over the World call Thailand “The prostitute country” ...

... Because ...

... They are not become extinct! ...

😊😊😊😊😊😊😊😊
