

**Three
of
the expensive lessons
I have learnt from people all over the world**

(4 March 2024)

- (1) I help other people, but when I need help, nobody helps Me.
- (2) Love is about a gain, so I love other people, but the other people do not love Me.

And

- (3) Although I am The Daughter of The Father Almighty or another name is Allah, and The Only One Prophet of the current millennium, many people are ready to kill Me just because pimp king Bhumibol who is a Satan and the satanic Chakri dynasty who all are devils will allow them to get everything which they want.
