

***What My plan about My compensation and interest is?  
(Updated of 8 March 2024 on 21 June 2025)***

😊😊 Population in our world are around 8,500,000,000 people 😊😊

But

around 3,000,000,000 people all around our world will be lost.

So,

the balance of the population in our world will be around 5,500,000,000 people.

If 10,000 pounds a person	=	55,000,000,000,000 GBP (Fifty-five trillion pounds)
If 100,000 pounds a person	=	550,000,000,000,000 GBP (Five hundred and fifty trillion pounds)
If 1,000,000 pounds a person	=	5,500,000,000,000,000 GBP (Fifty-five thousand trillion pounds)
If 2,000,000 pounds a person	=	11,000,000,000,000,000 GBP (Eleven thousand trillion pounds)

Because

around 3,000,000,000 people all around our world will be lost,

so

money of 3,000,000,000 people will be My compensation and interest.

So that,

if 2,000,000 pounds a person for all people who will be still in our world,  
each of 3,000,000,000 people will compensate around 3,666,667 pounds.

As a result,

I strongly believed that

2,000,000 pounds a person for all people who will be still in our world  
is not out of reach.

In that

each American head fund manager who has ordered The Father Almighty  
has his money around 50,000,000 USD – 1,000,000,000 USD.

How many people all around our world  
who have ordered The Father Almighty to be millionaires and billionaires?  
How about money of corrupt people in “Blind Trust”, in banks in the US, and  
in banks in Switzerland?

And

how about money under managements of companies which launder money at  
Cayman Islands?

Because of that,  
2,000,000 pounds a person for all people who will be still in the world  
is not “out of reach”  
and  
is not “so far”
