

Why on only “Fridays”?

(25 October 2025)

(I wrote these truths from 23 October 2025 to 25 October 2025, and posted them on My Website on 25 October 2025. Please read them all.)

Before I decided to write This Topic, I had checked My emails and had found that Christians celebrate Christmas by using turkeys, pork, lambs, ducks, prawns, and/or other meats to cook for celebrating.

While I was pitying the animals, Jesus told Me “Angie, I want everyone to know the truths from You ☺☺.”

So, I would like you especially you who are ready to celebrate Christmas by using turkeys, pork, lambs, ducks, prawns, and/or other meats to cook for celebrating to carefully consider;

The Late Father Robert Martin told Me “Angie, Christianity teaches Christians to be “vegetarian” on every Friday”

Father Wirach Amonpattana and AI Overview of Google also told Me “Christians abstain eating meats on every Friday to think of the severe torments before Jesus would be ascended to Heaven and to make merits for Jesus and their own themselves”

And I had a chance to read The Bible for kids. It was written in The Old Testament in The Bible for kids “I (The Father Almighty or Allah) gave “seeds” for your food ...” ... So, think through: What else is a meaning of the word “seeds”?

The Father, Jesus, and Na-bee Mohammad is The Most Merciful. Why do you think that They All want us to celebrate Their Anniversaries by killing animals for celebrating? And why do you think that They All want us to live our lives by killing other living things?

The Father, Jesus, and Na-bee Mohammad supported Me to tell you My Thought;

“Humans are descended from the creations of The Father. And humans have brains and physical appearances which are specially different from the other living things. So, why we who are humans that descended from the creations of The Father, do not use our specially different gifts from The Father to treat the other living things mercifully? Why we who are humans that descended from the creations of The Father, use our specially different gifts from The Father to hurt and/or to kill the other living things?”

And Three Questions which are interesting to think over are “Is it noted in any parts of The Bible that before the first man and the first woman who were the creations of The Father would be fired out down from Heaven, they had been taught by The Father to eat meats?” “Is it noted in any parts of The Bible that while The Father, Jesus, and Na-bee Mohammad were being in Heaven, They ate meats?” ... And once again: It was written in The Old Testament “I (The Father) gave “seeds” for your food ...”, right?

A truth which The Father reminded Me is “Angie. Humans who are self-centre find an excuse to support their like “We have the rights to do that” to deny that merciless deeds which they have done like it seems to be general are not wrong. A noticeable example is that humans love to eat meats, so they who are self-centre find an excuse to support their like “We have the rights to do that. Animals were born for being our foods!” Whereas, their excuse is not been thought by merciful humanitarian to think about how the other living things who are killed are while they are being killed just for being a meal!”. ...

... Think twice: In normal situation, if a group of humans killed another group of humans just for being a meal, we will condemn the group of humans who killed another group of humans “cold-blooded” and/or “psychosis”, right? But when we kill the other living things **who have no way to fight against us** just for being a meal, why do not we think that we ourselves are “cold-blooded” and/or “psychosis”? ...

... Why humans who are descended from the creations of The Father use their brains and physical appearances which are specially different gifts from The Father to cold-bloodedly treat the other living things but think “We are normal”? ...

... If somebody excuses “We never killed any animals. Butchers and slaughterhouses themselves kill the animals”, try ponder over: Have you ever learnt about “demand” and “supply”? Merchants and businessmen need to sell products which have “demands”, right? The more the high demands, the more the chances a product will be sold, right? So, if you are one of the people who consume meats, how can you refuse that you are not one of the targets of merchants and businessmen who kill the animals for selling meats? So, who are the real killers?

Try thinking:

Because humans are increased their cruelty every day and because now, Christians celebrate Christmas by killing the animals to cook normally, so if in the next generations, humans had a belief “We have to celebrate Christmas by babies instead of lambs, and by a part of humans’ bodies instead of turkeys”, what would our offspring do?

Because humans are increased their cruelty every day and because now, the humans love to kill the animals such as fishes to maintain their health, so, if in the future, it had many pieces of research “Eating eyes and hearts of humans will help us to have long-lives” and many people used their abilities to kill you and/or your loved ones to do as the research to have long-lives, how would you do?”

Because humans are increased their cruelty every day and because now, many people love to use products which made by genuine leathers, so if leather manufacturers wanted your skin to make “genuine leather” for other people, how would you do? And if in the next generations, many future generations wanted shoes, bags, and/or clothes which made by “humans’ skins”, what would happen?

And because humans are increased their cruelty every day, (Did you see that now, ones kill others normally even though the others are The Youngest Daughter of The Father and The Younger Son of The Father?) so, why do you think that the imaginary situations earlier will not definitely be happened if you insist not to change?

Once again: The Father, Jesus, and Na-bee Mohammad is The Most Merciful. Why do you think that They All want us to celebrate Their Anniversaries by killing the animals for celebrating? And why do you think that They All want us to live our lives by killing the other living things?

Why do you think that only animals that are humans’ friends such as dogs and cats have hearts and feelings, but the other living things do not have hearts and feelings?

For people who think “I feed the animals (such as hens, pigs, and cows) to deliver their children and I feed their children from generation to generation continuously, so I have “the full rights” to do anything to them all including killing them all”, I would like you to contemplate;

If your parents thought that you were conceived by them and they “fed” you since you were conceived, so they can do anything to you including tyrannizing you and killing you, how would you do? Would you grow up to have “the full rights” to “kill” the animals as you have done nowadays? And if all the parents in the world thought like that, how all the children in the world and our world would be? ... You were conceived and were “fed” by your parents like the animals are conceived and are “fed” by you, right?

As a result, why Christians celebrate Christmas by killing the other living things to celebrate? And why Christians live their lives by killing the other living things? “Jesus” means “Why Christians do not make merits by being vegetarians every day? Why Christians are vegetarians on only “Fridays”?” ...

... Why on only “Fridays”? ...

Note: If you including you who are Chinese people especially Chinese people who come from Shantou (Chaozhou) want to celebrate My Success, please do not kill any animals for celebrating 😊😊😊😊😊😊😊.
