

DMJ-40

Manpack Multiband Jammer

FEATURE HIGHLIGHT

- Frequency jamming bands: RC, VHF, UHF, Cellular
- Selectable operating modes
- Jamming distance: 30 meters
- High gain Omni-Directional antennas
- Battery level Indicator and status alert
- Remote control operation
- IP65 & Military standard

APPLICATIONS

- Anti-terror units
- Bomb squads
- Border protection
- VIP Protection
- Military bases protection

SkyJammer DMJ-40 is device to transmit radio signal to interfere cellular phone receiver, radio with DTMF signal to ignite a bomb, and remote control to activate a bomb from far distance.

Smart Remote

SPECIFICATION

Jamming Module	Remote Control	27 MHz, 35 MHz, 40 MHz, 49 MHz, 315MHz, 434 MHz
	Radio	136 - 174 MHz, 400 - 500 MHz
	Cellular	869 - 960 MHz, 1805 - 1880 MHz 2110 - 2170 MHz, 2400 - 2690 MHz
Jamming Range	30 meters	
Antenna	Omni-Directional	
Power	220VAC/24VDC Li-Polymer rechargeable battery (2 hours operation)	
Heat Dissipation	Heat Sink (Fanless Design)	
Safety System	Overheat Protection, Antenna mis-match protection, Over current protection	
Operating Temperature	-10°C to 70°C	
Standards	MIL-STD 810G : Vibration Testing IP65 : Dust and Waterproof	

* Design and specifications are subject to change without notice for continuous quality improvement

Catalog No: D2063R4
