

THROUGH COOLANT ER COLLETS

Experience Flexibility
Without Complexity

METRIC

Our new steel sealed ER collets provide more flexibility and support a variety of machining applications with less optional tooling. Sealed collets enable through coolant while maintaining the expected grip and runout—taking your operations to the next level.

Industry standard grip for process security

Industry standard runout for better tool life and application

Through coolant for better tool life and part quality

Compatible with standard adapters, requiring less optional tooling inventory
