M-Plus Tech Provides Quality and most flexible solutions of conveyors and other imported products which can be customized for every industry.

M-Plus Tech was founded in 2005 as an importer and distributor of products which serve a wide variety of industries.

Our products include conveyors and components, motors, auto-lubricants, bottle drying machines, metal detector machines, checkweigher machines, barcode printers, labelling machines, packaging machines. Our company offers the highest quality products from various partners together with advice from our experienced and specialist team in order to increase productivity, reduce waste and increase overall profits, and the most important is to maximize our customers satisfaction.

With our experience in searching for the best products and our team who have known each industry well, our company has gained trust and satisfaction from various customers around the country. As a result, we have expanded services throughout Thailand with a total of 5 branches including Chiang Mai, Saraburi, Khonkaen, Rayong, Hat Yai and our headquarters is located in Samut Prakan.

We will continue to develop our knowledge of products, our staff and our services to serve our customers the best in every way.

Our Vision

To be a leading provider of integrated industrial solutions, combining world-class innovative products with standardized design and installation services.

Our Core Value

Partnership: customers are our partners and we grow together

Responsibility: Take responsibility for all imported products and installations.

Innovation: Constantly source new products and technologies to offer factories.

Design Excellence: Design cost-effective and practical systems.

Efficiency: Work quickly to minimize disruption to customer production lines.

PERFORMANCE IN MOTION

Regina Conveyor displays a complete high-quality product portfolio for bottling, packaging, glass, food and can manufacturing applications

- Stainless steel and plastic chains
- Plastic modular belts
- Gripper chains
- Machined and molded sprockets
- Magnetic, TAB and Bevel curves
- Lubricated and standard wear strips
- Return rollers, side guides and components

INDUSTRIAL

- Enduro series maintenance-free chains
- Thermoforming sticker chains
- Film gripper chains
- Chains for the chocolate industry
- Hybrid series maintenance free chains

Tecom s. r. l. has a 30-year experience in the development and production of conveyor components

For more than 50 years, Perma has stood for innovative and creative lubrication solutions

SPARE PARTS FOR FILLING & PACKAGING INDUSTRIES

MOTIVE - POWER TRANSMISSIONS

Engineering Plastics and Machined Parts

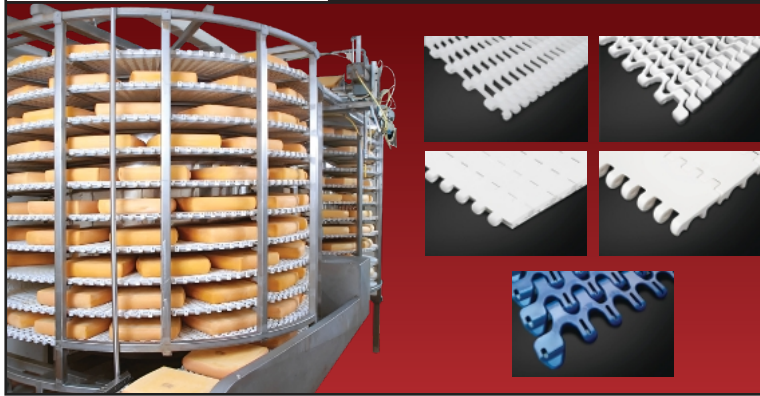

ADVANTAGES

- Excellent wear and abrasion resistance
- Very low coefficient of friction
- Self-lubrication
- No moisture absorption

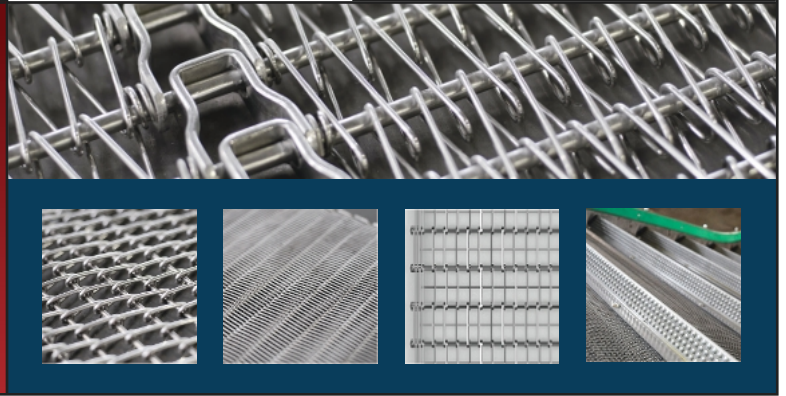

SCANBELT

ScanBelt is one of the world's leading manufacturers of modular plastic conveyor belts

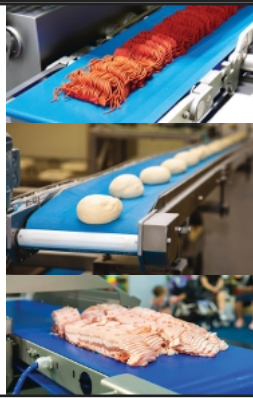

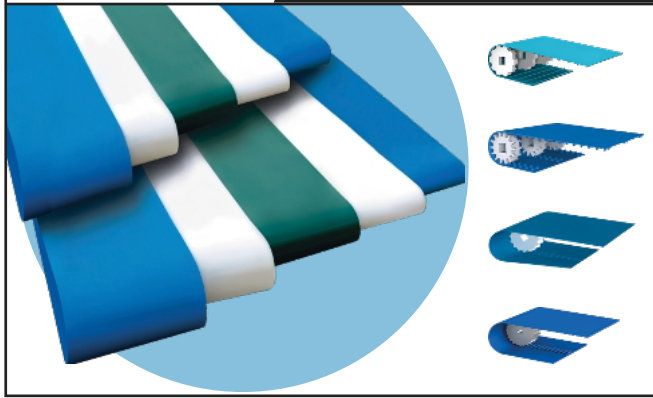

Costacurta

Costacurta helps customers choose the best conveyor belt using its expert calculation program.

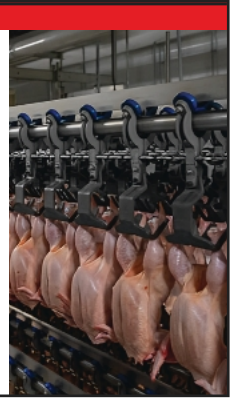

mafdel

Mafdel : manufacturer of thermoweldable belts and conveyor belts for 40 years
Mafdel : products can be used for many applications

Rodon International is your one-stop shop for poultry processing

CEIA THS Metal Detectors detect metal contaminants that are accidentally present on industrial products

Idecon specializes in in-line systems for quality control by combining checkweighers

Industrial Fan and Blower Air Knife Systems are blower driven solutions that increase production efficiencies and save significant running costs

Good Products and Good Services M-Plus Tech provides its customers with a high degree of specialization by providing targeted consultancy and training activities on request

Label Printers

Cab printers meet all requirements for any setup

Hx Nitro

Industrial Thermal Inkjet Printer

Laser Coding Machine for Bottle Wood/Plastic

OKI Colour LED Label Printer

Barcode Printer

LABELING

PACKING

Colamark

Colamark is a leading provider of labeling, card fabrication equipment, and inkjet system integration, delivering reliable and innovative solutions for the pharmaceutical, healthcare, food & beverage, and smart card industries.

DENSO robotics

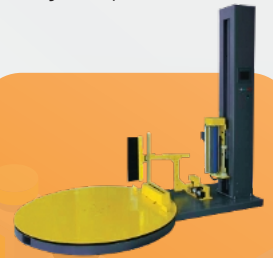

CREATE A PEOPLE-ORIENTED BRIGHT SOCIETY WITH OUR REFINED ROBOT TECHNOLOGY

DENSO applies experience of using production technologies from our production sites to our product development, which drives our continuing efforts to create high-performance robots that are easy to use.

We are experts in high efficiency, intelligent packing machines suitable for your production

GURKI

is your reliable partner for automated packaging systems
