Siam Metal Work

Manufacturing Co., Ltd.

COMPANY PROFILE

Siam Metal Work Manufacturing Co., Ltd. (SMW)
is a manufacturing for metal part, die and jig according to the drawing and standard requirement from the customers. Which are various OEM automotive parts and others.

More than 21 years, we have been dealing the business with our customer based on mutual trust and satisfaction which is drove executed by the global standard system

We are continuing to improve the performance to increase the efficiency, productivity, quality and cost reduction to achieve the customer's demand based on 3 core pillars of our mission,

- 1 Sustainable growth
- 2 Maximum action
- 3 World standard

QUALITY POLICY

“ The company has committed to customer’s requirement in term of quality, delivery and service by the quality management and continuous improvement as well ”

PRODUCTS

STAMPING PART

Main manufacture for automotive parts with various material such as low and high carbon steel, stainless steel, aluminium and copper which the highest thickness from 0.8 up to 12 mm.

MACHINING PART

CNC machines which suitable for metal parts that need to require more high precision. Also there is a high speed to produce which can response our customer on time.

GRINDING PART

Surface grinding for automotive part and other industry by a large table size up to 500 x 1,200 mm. with the high capability which up to 5 microns.

WELDING PART

Welding process for the component parts by robot welding machine with high productivity efficiency and constant of product quality.

VARIOUS PARTS OF PRODUCT

CONDENSER PARTS

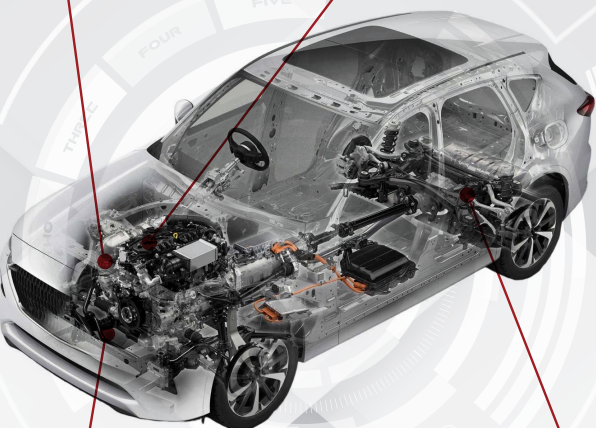

SUSPENSION PARTS

TRANSFER PARTS

AXLE PARTS

INSTRUMENT LIST

Coordinate Measuring Machine

Digimatic Outside Micrometer

Rockwell Hardness Tester

Coating Thickness Gauge

Digimatic Indicator

Dial Indicator

Torque Wrench Meter

Outside Micrometer

Digimatic Height Gauge

Digimatic Caliper

Surface Roughness Tester

Contour Measuring Instrument

Gauge Block

Grinding & Polishing Machine

Universal Testing Machine

Eddy Current Tester

MACHINERY LIST

1. Power Press 250 Tons	1 Unit	13. Welding Machine	3 Units
2. Power Press 200 Tons	1 Unit	14. Drilling & Tapping Machine	6 Units
3. Power Press 150 Tons	2 Units	15. Cutting Machine	4 Units
4. Power Press 110 Tons	7 Units	16. CNC Lathe Machine	13 Units
5. Power Press 80 Tons	3 Units	17. Machining Center	1 Unit
6. Power Press 60 Tons	13 Units	18. Leveling Machine	1 Unit
7. Power Press 45 Tons	6 Units		
8. Power Press 35 Tons	1 Unit		
9. Power Press 30 Tons	1 Unit		
10. Power Press 25 Tons	2 Units		
11. Power Press 20 Tons	1 Unit		
12. Surface Grinding Machine	3 Units
