

# Smart Blackboard for Conference

All-in-one Traditional+Intelligent Smart Board with Windows and Android System

EIBOARD LED Recordable Smart Blackboard in model FC-77EB / FC-94EB is an innovative design for smart presentation, especially for enterprise meetings, small classrooms or training rooms. It provides a 77"/94" easy-to-read & write all-in-one writing panel, that is user-friendly, making it easy to write, draw or annotate on the board. The smart blackboard is also recordable, allowing us to write, mirror and save important notes or ideas discussed during the presentation, the recorded notes can be shared easily by QR scan. A 4K camera with 8-array microphones is built-in for online conference conveniently.
