

# 10 Watts UV LASER

- ★ 10" High definition touch screen
- ★ Intelligent operating system
- ★ Multi material inkjet printing

## APPLICATION

### EXPLAIN

The parameters of the Laser are subject to change, if there is fluctuation, according to the substrate.

### EXPLAIN

Plastic

Mask

Glass

Charger

86, 88 Soi Rama2 71, Rama2 rd. , Samaedam, Bangkhun en, Bangkok 10150.

## Equipment Specifications

Laser Model:	CX03-J10-10U
Cooling method :	Water Cooling
Marking software :	Clefine
Software support system :	LINUX
Support graphics format :	PLT, DXF, AI, JPG, BMP
Support language :	Chinese, English, French, Korean, Japanese, Arabic, Russian, Portuguese, Thai, Spanish, Vietnamese, German, Persian, Turkish
Marking area location :	Double red dot focusing, Red light scanning of marking path
Marking content :	Text, graphics, barcode, time, serial number, batch number, etc.
Marking area :	110 mm×110 mm, Area size customizable
Maximum marking content :	No limit for lines within this area
Speed :	10000 mm/s
Material :	Aluminum alloy + stainless steel
Size :	900*985*1506mm(L*W*H)
Net weight :	75Kg
Input voltage :	Single phase, AC 100~240V, 50/60Hz, 10A
Working humidity :	10-90%RH, No Ice And No Condensation
Working temperature :	0°C-40°C

## Laser Specifications

Average output power :	10W
Wavelength :	355nm
Pulse repetition frequency :	10~200Khz
Laser source:	JPT
Scanner type:	7220-D
