

# SALTPool CHLORINE GENERATOR

Model No.	CFLH 20/30/40/60
Salt Level	Ideal 3000-4000PPM
Cell lifetime	5000/7000/10000/15000/20000/25000 hours for choice
Cell Self Cleaning	Reverse polarity/ self cleaning
Salt Chlorinator Style	Suitable for In Ground Pool
Input Voltage/Freq	120V/240V,50HZ/60HZ
Pipe Size	1.5" or 2" for choice
Gross Weight	Around 11 kgs
Carton Size	35.5*27.5*30cm

## Pool Salt Chlorinator CFLH

CFLH for in-ground pool, the benefits of salt systems in pools are the convenience and the constant delivery of pure chlorine-based sanitizer.

Compared with traditional chlorination methods, the reduction of irritating chloramines and the "softening" effect of electrolysis can reduce the alkali metal minerals dissolved in water, which is also considered beneficial. For some people who are sensitive to chlorine, these systems may be less aggressive. Since the price of salt is much lower than commercial chlorine, salt pools that are maintained throughout the year are cheap.

Simple and safe tank maintenance can be performed without mixing, measuring and storing harsh chemicals

Eliminate the foul smell of chlorine and create a more relaxing swimming pool environment.

Manufacture price, engineers in US and Australia.

ETL Certificated.

- Water flow detector
- Long life time cell 10000-15000 hours
- Digital display and LED indicators
- Accurate salinity level reading
- Adjustable chlorine output
- Super chlorination mode
- High & low salt indicators & protection (working salt from 2300PPM to 6500PPM)
- High & low temperature indicators & protection (working temperature from 50F to 140F)
- Cell failed indicator
- Cell self-cleaning
- Warranty 1-2 Year
