

LASWIM

SMARTER WATER FOR A SMARTER HOME

CL200

CHEMICAL FEEDER

- 9lb inline chlorine feeder.
- Chlorine feeder rate is adjustable by regulating the valve setting.
- Easy-lock cover for total tightness.

Features:

- No-special venting-required.
- Completely-sealed,no-escape of gase:
- Positive-external,no-clog-control valve.
- Feeder is designed to automatically-lower the water-level-so tablets are not soaking during off period of pump.This allow more efficient use of tablets.
- No equipment damage. Feeds sanitizer directly-to pool or spa.
- To prevent over feeding during use, completely close the control valve and the built in check valve will prevent chemical from being fed into pool or spa.
- All parts replaceable.
- Never connect with brass pipe.
