

Marathon | 550

**THE TOUGHEST
UNIVERSAL HIGH BUILD
EPOXY PRIMER FOR ALL
AREAS DOWN TO ST2.
ENGINEERED FOR
FASTER PRODUCTION.**

PRODUCT

Marathon 550 is surface tolerant for early immersion, and can be applied on damp surfaces. It is high build and abrasion resistant, low VOC and made for efficient application.

TYPICAL USE

Suitable for structural steel and piping to be exposed to corrosive environments up to very high and immersed. Recommended for offshore environments, refineries, power plants, bridges, buildings, mining equipment and general structural steel. Especially suited in areas where high mechanical strength is required, such as splash zones. Compatible with cathodic protection systems.

TECHNICAL INFO

- High solids, high build abrasion resistant epoxy coating
- Tolerance for damp surfaces during application – ideal for application on hydro blasted surfaces
- Excellent compatibility with sacrificial and impressed current cathodic protection systems
- Compliant and tested to NORSOK M501 for splash zones and submerged areas (system 7) and decks (system 4)
- Available in a wide range of colours according to Jotun Multicolour System (MCI)
- Wide DFT range 200–550 microns
